

VALLEY REAL LIFE

9/1/2019 - 8/31/2020

To our readers:

The financial summary of our fiscal year reflects God's grace to our community through your generosity. Your financial contributions have played an important part in every story of life change celebrated in our annual report.

As a church, we take financial stewardship seriously. We hope this will shine through in our Financial Summary as you see that we have outperformed our budgeted expenditures. We also committed even more funds to direct ministry and outreach activities than we had budgeted and reduced administrative and compensation ratios.

Of course, no one could have anticipated the chaos that 2020 brought to so many families, but with your giving and our stewardship combined we were able to make several quick pivots to launch our Online Campus in a matter of days, setup an entire Food Bank, increase our benevolence funding, and support our local and international partners.

Thank you for your generosity this past year and we pray God will bless you more and more as you continue to give to what He is doing through Valley Real Life.
